VITAMIN SUPPLEMENTS, WATER ACIDIFIERS & LIQUID CALCIUM

Vitamin and calcium supplements play a crucial role in livestock farming by supporting overall animal health and productivity. These supplements help ensure that animals receive essential nutrients necessary for proper growth, reproduction, and immune function. Adequate levels of vitamins and calcium contribute to stronger bones, improved milk production, and overall well-being in livestock, promoting a sustainable and thriving farm operation.

APSA AMINOVIT

A specialized blend of essential vitamins and amino acids formulated to address deficiencies resulting from malabsorption syndrome. This product is designed to promote optimal muscle development, reproductive health and overall livestock wellbeing.

Usage: Chickens and turkeys: 0.5 mL/L of drinking water during the first 2 weeks of life. Other poultry, except geese and pigeons: 0.2 mL/L of drinking water

Packaging: 0.5L, 1ltr, 5ltr & 25ltr

APSA HEPATOCHEM

A nutritional supplement crafted to promote optimal liver function – a powerful blend of methionine, choline, and vitamin B12 carefully formulated to support liver recovery, ensuring your livestock's metabolic processes are at their peak. Packed with essential nutrients, it aids in enhancing overall health, fostering robust immune responses, and contributing to improved productivity in your herd.

Usage: Poultry: 0.5 - 1 mL/L of drinking water for 5 - 7 days. Piglets: 5 mL/10 L of drinking water for 5 - 7 days

Packaging: 1ltr, 5ltr & 25ltr

APSA MINT

A nutritional supplement enriched with essential oils like eucalyptus and menthol crafted to enhance the respiratory well being of your livestock. Its designed to boost ventilation capacity in the respiratory tract, particularly beneficial during pathological situations, post vaccination and periods of stress.

Usage: Poultry: 0.5 - 1 mL/L of drinking water for 5 - 7 days. Piglets: 5 mL/10 L of drinking water for 5 - 7 days

Packaging: 1ltr, 5ltr & 25ltr

APSA POLIVITSEL

Specialized nutritional supplement rich in liposoluble vitamins, vitamin k and vitamin c. Tailored for addressing deficiencies arising from malabsorption syndrome in severe cases of coccidiosis, this formulation is a vital support system for your livestock, ensuring optimal health and resilience in challenging conditions.

Usage: Poultry: 0.5 - 1 mL/L of drinking water for 5 - 7 days. Piglets: 5 mL/10 L of drinking water for 5 - 7 days

Packaging: 1ltr, 5ltr & 25ltr

VITACITRUS

Energize your livestock with our groundbreaking VITACITRUS Supplement, a revolutionary blend tailored to elevate their health and performance. Packed with a potent combination of essential vitamins, minerals, and the invigorating essence of citrus, this supplement is a game-changer for your animals well-being. Vitacitrus is formulated to support immune function, enhance digestion, and promote optimal growth, ensuring your livestock thrives in every aspect. With its palatable taste and easy administration, integrating this supplement into your livestock's nutrition regimen is a breeze.

Usage: Poultry: 0.5 - 1 mL/L of drinking water for 5 - 7 days. Piglets: 5 mL/10 L of drinking water for 5 - 7 days

Packaging: 1ltr

NUTRICAL

Elevate your livestock's well-being with NUTRICAL Liquid Calcium Supplement, a specialized formula crafted to enhance bone strength, proper egg shell formation and overall health in animals. Formulated for optimal absorption, this liquid supplement ensures that your livestock receives essential calcium for robust skeletal development. Give your herd the nutritional support they need with our easy-to-administer. Liquid Calcium supplement, promoting vitality and longevity for your valuable livestock.

Usage: Poultry: 0.5 - 1 mL/L of drinking water for 5 - 7 days. Piglets: 5 mL/10 L of drinking water for 5 - 7 days

Packaging: 1ltr, 5ltr

AGROCID SUPER OLIGO

AGROCID the best water acidifier on the market. Engineered with precision and innovation, it guarantees unparalleled pH control, optimizing water quality for your animals. Its advanced formula not only ensures superior hydration but also promotes digestive health, leading to enhanced overall performance in poultry and livestock. You can trust in a product that goes beyond industry standards, offering a seamless integration into your daily livestock care routine. Elevate your farming practices with the best-in-class water acidifier.

Usage: 3-5litres in 1,000litres of water

Packaging: 1ltr, 25ltr

CLEANERS & DISINFECTANTS

CID

Introducing CID 2000, the cutting-edge solution for livestock water pipe flushing that ensures optimal water quality and hygiene on your farm. This innovative system employs advanced technology to efficiently flush out contaminants and sediment, safeguarding your animals' well-being. With CID 2000, you can trust in a reliable and automated flushing process, promoting a healthier water supply for your livestock and peace of mind for you as a farmer.

Usage: Use Cid 2000 at a dilution of 300-400 ml per 1000 L of drinking water for 2 to 3 days per week or every other day, or during high risk periods 3 to 4 consecutive days.

Packaging: 1ltr, 25ltr

KENOCOX

KENOCOX stands as a reliable solution in combatting coccidiosis, a protozoa! infection commonly affecting young cattle & chicken. Notably, its efficacy extends to targeting the environmental stages of this infection, providing comprehensive protection for your livestock. Choose Kenocox to safeguard the health and well-being of your young cattle and chicken with a trusted and effective defense against coccidiosis

Usage: Disinfect all surfaces, floors, walls and equipment that might come in contact with animals, covering the surface area with 400ml of solution to 1 square metre.

Packaging: 1ltr, 10ltr

KENOSAN

KENOSAN an exceptional cleaning solution designed for the livestock farming. Boasting unparalleled adhesive and penetration power, KENOSAN generates a long-lasting foam that significantly extends the contact time required for chemical action. Experience the superior cleaning performance that KENOSAN delivers, ensuring a pristine and hygienic environment throughout the entire livestock farming industry.

Usage: Use Keno™san at 0,5 to 2 % dilution and apply with normal dosing or foaming equipment. Let the product react during 10 to 60 minutes. Rinse with potable hot or cold water after treatment.

Packaging: 5ltr, 22ltr

KENOSEPT

KENOSEPT, a rapid-drying liquid alcohol solution meticulously crafted for effective hand disinfection. Formulated with a blend of isopropanol and chlorhexidine, this advanced solution is specially tailored for critical environments such as livestock farms, hospitals, healthcare facilities, laboratories, and the food industry. Trust in KENOSEPT to provide swift and reliable hand disinfection, ensuring a hygienic and secure environment in every application

Usage: Wash hands carefully and dry

Packaging: 5ltr, 1ltr

VIROCID

VIROCID a powerful solution formulated with quaternary ammonium compounds to ensure the utmost cleanliness on all surfaces. Engineered for efficacy, this disinfectant provides a robust defense against a broad spectrum of pathogens, making it an ideal choice for maintaining a hygienic environment. Its concentrated formula not only ensures thorough disinfection but also offers excellent cost-effectiveness by allowing you to customize the dilution according to your specific cleaning needs. Trust in the science of quaternary ammonium to safeguard your spaces with our versatile and effective disinfectant solution.

Usage: 50mls in 20litres of water for misting & 100ml in 20ltrs of water for footbaths water solution

Packaging: 1ltr & 20ltrs

FEED ADDITIVES

ACIDOMIX

Elevate your livestock nutrition strategy with ACIDOMIX a microgranulated feed acidifier designed to stimulate protein digestion and mitigate the intake of potentially harmful micro-organisms. This innovative solution is engineered to enhance feed quality, promoting optimal nutrient absorption and overall animal well-being. With ACIDOMIX, experience a superior feed additive that not only improves digestion but also contributes to a healthier and more productive livestock environment.

Usage: 1-2kg in 1tonne depending on the formulation

Packaging: 1kg & 25kgs

ACTISAF

Revolutionalize your livestock's digestive health with Actisaf, a premium liveyeast probiotic. Specially formulated to enhance rumen function, this power house supplement promotes improved feed digestion, nutrient absorption and rumen PH.

Usage: 1-2gram/animal per day for calves & heifers, 5-10gms/animal/day for lactating cow, 5g/animal/day for pre and post calving

Packaging: 1kg & 25kgs

CHOLINE CHLORIDE

In livestock farming, add choline chloride to the animal feed at recommended levels to support liver function, enhance growth, and improve overall performance. Ensure accurate mixing and distribution in the feed to provide the necessary choline supplementation for optimal health and productivity in your livestock.

Usage: 1-2kg in 1tonne of feed

Packaging: 1kg & 25kgs

DCP

DICALCIUM PHOSPHATE (DCP) is an indispensable cornerstone in modern livestock farming, prized for its essential role in promoting robust skeletal development and overall animal health. Our premium DCP supplement stands out for its balanced calcium and phosphorus composition, ensuring optimal nutrient absorption for livestock. Elevate your farming practices with our high-quality DCP, providing a reliable foundation for bone strength and overall well-being in your animals.

Usage: 3-5kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

LYSINE

Unlock the potential of superior protein synthesis in livestock with our premium LYSINE supplement, a cornerstone of modern farming nutrition. Specially formulated to meet the dietary needs of livestock, our LYSINE product enhances growth, feed efficiency, and overall protein utilization. Elevate your livestock farming practices by incorporating our high-quality Lysine, ensuring optimal amino acid balance for healthier and more productive animals.

Usage: 1-2kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

METHIONINE

In livestock farming, incorporate methionine into the animal feed at prescribed levels to enhance protein synthesis, support growth, and improve feed efficiency. Ensure accurate measurement and uniform distribution in the feed to provide essential methionine supplementation, promoting overall health and maximizing the productivity of your livestock.

Usage: 1-2kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgss

MINAZEL

MINAZEL, our advanced toxin binder, offers unparalleled protection for your livestock by effectively neutralizing harmful toxins in feed. Specially formulated to bind mycotoxins and other contaminants, MINAZEL promotes optimal health and ensures the well-being of your animals. Elevate your livestock management with MINAZEL, the trusted choice for a toxin-free and thriving herd.

Usage: 1-3kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

PRETECT D

Discover the power of PRETECT D, a natural poultry solution tailored for challenging conditions. Proven to enhance Feed Conversion Ratio (FCR) and Body Weight Gain (BWG), Prelect D stands as a reliable ally in optimizing poultry performance. With documented benefits including reduced mortality, this innovative solution ensures healthier flocks and improved overall productivity, making it an indispensable choice for poultry farmers facing adverse circumstances of coccidiosis

Usage: 500gm s to 1kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

SALCLEAN

Unleash the power of SALCLEAN a formidable anti-Salmonella solution crafted from a blend of potent organic acids, salts, and selected essential oils. This cutting-edge formulation is engineered to combat Salmonella effectively, ensuring a hygienic environment for both livestock and poultry. Rely on SALCLEAN for its proven efficacy, offering a potent defense against Salmonella contamination in a natural and precisely curated composition.

Usage: 1-3kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

FORMYCINE

Introducing our advanced feed solution - a dual-action powerhouse serving as both a sanitizer and acidifier for your livestock. This formulated product not only ensures the hygiene and safety of your feed by eliminating harmful pathogens but also optimizes the digestive environment, promoting healthier gut flora and enhancing overall animal well-being.

Usage: 1-2kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

ENZYMES

Elevate your livestock nutrition with our enzymes, designed to enhance feed digestion and nutrient absorption. Simply incorporate the recommended dosage into your animal feed, and watch as our specialized enzymes promote optimal digestion, improving feed efficiency and supporting overall health in your livestock.

Products: Enzyme products, Habiomulti enzyme, Ronozyme multigrain GT

Packaging: 1kg & 25kgs

MIX SCIENCE PRO

Revolutionize your feed efficiency with our groundbreaking product, slashing maize usage by an impressive 20% in complete feed formulation. By optimizing nutritional content, this innovative solution not only economizes feed costs but also ensures a balanced and sustainable diet for your livestock, contributing to healthier and more productive farming.

Usage: Replaces 30% of broken maize

Packaging: 1kg & 25kgs

ZINC BACITRACIN

Boost your livestock's well-being with our high-quality zinc supplement. By incorporating the recommended dosage into their diet, you ensure optimal immune function, improved growth, and enhanced reproductive performance, supporting the overall health and vitality of your valuable livestock.

Usage: 250gms to 1tonne of feed

Packaging: 1kg & 25kgs

THREONINE

Enhance your livestock's protein intake with our premium threonine supplement. By seamlessly integrating the recommended dosage into their feed, you promote balanced nutrition, boost muscle development, and maximize growth potential, ensuring your animals thrive with optimal health and vitality.

Usage: 1-2kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

MCP

Elevate your livestock's phosphorus intake with our top-tier MCP (Monocalcium Phosphate) supplement. By adding the recommended dosage to their feed, you facilitate efficient phosphorus absorption, supporting robust bone development and overall health in your animals

Usage: 3-4kgs in a tonne of feed depending on the formulation

Packaging: kg & 25kgs

TOXIBAN

TOXIBAN, our unique toxin binder, sets a new standard in livestock care by efficiently neutralizing a wide spectrum of harmful toxins present in feed. Engineered with precision, Toxiban provides a robust defense against mycotoxins and other contaminants, promoting optimal health and performance in your animals. Choose TOXIBAN for a cutting-edge solution to toxin management, ensuring the well-being and resilience of your valuable livestock

Usage: 1-3kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

MICOBAN

Safeguard your livestock with our advanced toxin binder, a crucial addition to your farming arsenal. By incorporating this product into their feed, you ensure the effective neutralization of harmful toxins, promoting a healthier digestive system and safeguarding the well-being of your valuable livestock.

Usage: 1-3kg in tonne of feed depending on the formulation

Packaging: 1kg & 25kgs

PIG GROW

PIG GROW the premium solution for promoting robust growth and maintaining peak health in your swine. Specially formulated with a balanced blend of essential nutrients, vitamins, and minerals, PIG GROW is designed to optimize the development of your pigs from weaning to market weight. Elevate your swine management practices with this superior growth supplement, ensuring not only accelerated growth but also overall well-being for a thriving and profitable pig farming operation.

Usage:

Packaging: 1kg & 25kgs

MINERAL BLOCKS

MINERAL BLOCKS the cornerstone of optimal nutrition for your herd! Packed with essential vitamins and minerals, these blocks provide a convenient and effective way to meet the dietary needs of your cattle, sheep, and goats. Our specially formulated mineral blocks promote strong bone development, enhance coat quality, and support overall vitality. Easy to deploy and irresistible to your animals, ensure their well-being with our mineral blocks, the key to a thriving and resilient herd.

SANI BLOCK

Packaging: 2Kg, 3kg, 5kg & 10kg

SANI STANDARD

Packaging: 3kgs, 5kgs & 10kgs

BETRA DAIRY

BETRA DAIRY MINERAL BLOCKS play a crucial role in addressing the nutritional needs of cattle, especially dairy cows, by providing essential minerals in a convenient and accessible form. BETRA DAIRY BLOCKS are formulated to deliver a balanced mix of minerals that are vital for the overall health, reproduction, and milk production of dairy cattle. By addressing nutritional deficiencies, dairy mineral blocks contribute to the overall health and longevity of the herd. Healthy cows are more resilient to diseases, exhibit improved reproductive performance, and maintain consistent milk production.

Usage:

Packaging: 2kgs, 3kgs, 5kgs & 10kgs

BETRA BROWN

Packaging: 2Kg, 3Kg, 5Kg, 10Kg

DAIRY & CATTLE PRODUCTS

FOKKAMEL CMR

FOKKAMEL the ultimate calf milk replacer designed to nurture the future stars of your herd! Specially formulated with precision. FOKKAMEL provides a rich blend of essential vitamins and minerals to support optimal growth and development in young calves. This premium milk replacer ensures a seamless transition from mother's milk, promoting healthy bone structure and robust immune function. Easy to prepare and irresistibly delicious for your calves, FOKKAMEL is the trusted choice for farmers committed to fostering strong and thriving young livestock.

Usage: Mix 1kg of FCMR in 7litres of luke warm water & feed calves twice a day

Packaging: 25kgs

NUTRIPHOS

NUTRIPHOS is formulated with precision, to ensure a balanced blend of essential nutrients, promoting robust bone health, enhanced milk quality, and strengthened immune function in your cattle. NUTRIPHOS is your go-to solution for optimizing reproductive performance, fostering a healthy and thriving dairy herd. Easy to integrate into daily feed routines, NUTRIPHOS is the key to unlocking the full potential of your dairy farming success.

Usage: Mix recommended quantities in complete feed

Packaging: 25kgs & 1Kg

INTRACO DAIRY

INTRACO Dairy Concentrate 10%, a nutrition solution designed to optimize the health and productivity of your cattle. Packed with essential vitamins, minerals, and protein-rich ingredients, our concentrate is tailored to enhance milk production and overall dairy herd well-being. Elevate your herd's nutrition and witness increased milk yields with our scientifically crafted Dairy Concentrate - the key to ensuring your cattle thrive on the path to peak performance.

Usage: 200kgs in 1tonne of complete feed

Packaging: 25kgs

KENOPURE

All the necessary steps of a complete pre-milking hygiene procedure are realized with KENOPURE for cleaning, sanitizing and softening the teats before milking. Thanks to its fast action (30 seconds contact time only), Keno™pure is easy to include in your milking process. Can be used in different ways: by spraying, with towels or with a foaming dip cup.

Usage: 5mL of Keno™pure is needed per cow per milking session

Packaging: 1ltr & 5ltrs

KENOMIX

KENOMIX a cutting-edge post-milking teat dip designed for effective disinfection and protection. Activated on-site by effortlessly mixing with Keno™ mix Activator, its chlorine dioxide formulation ensures unparalleled efficacy, leaving a vibrant blue film for visual reassurance and prolonged defense against pathogens. Prioritizing both power and gentleness, Keno™ mix is committed to maintaining udder health through its simple, quick, and skin-friendly application.

Usage: this chlorine dioxide based teat-dip is prepared by mixing Keno mix with Kenomix Activator. “Just shake. Kenomix leaves a beautiful, bright blue coloured film on the teats

Packaging: 1ltr & 5ltrs

MINTREX

MINTREX, a supplement that delivers essential minerals like selenium to bolster the health and milk production of your cattle. Specially crafted to improve mineral requirements, Mintrex ensures your herd receives the vital nutrients needed for robust well-being and increased milk yields. Elevate your cattle’s nutritional support with Mintrex, the trusted choice for superior mineral provision in every feed.

Usage: Mix recommended quantities in complete feed

Packaging: 1Kg

FISH FEED

LFL FISH FEEDS IN DIFFERENT MM

Dive into successful aquaculture with our versatile floating fish feed, available in a range of sizes. Formulated with precision, this nutrient rich feed not only caters to various fish species but also ensures optimal growth and nutrition, fostering sustainable fish farming.

Products: Tilapia grower 4mm, Tilapia starter small crumble, Tilapia starter big crumble and Tilapia pregrower 2mm.

Packaging: 25kgs

DOG FEED

ARION ESSENTIALS

ARION ESSENTIALS, our premium adult dog food, is thoughtfully crafted to meet the nutritional needs of your dogs. Packed with high-quality ingredients, this dog food offers a balanced diet to support overall health, a shiny coat, and strong immunity. Choose Arion Essentials for a delicious and nutritious option that keeps your adult dog thriving and wagging its tail with joy.

Usage: Recommended feed according to weight and age

Packaging: 1Kg

EQUIPMENTS

CAGES

Transform your poultry farming set up with our well designed and strong cages built for comfort and efficiency, these cages provide a secure and spacious environment for your birds, optimizing space utilization and promoting healthy egg production in your flock.

Usage: To optimize the usage of your poultry cage, ensure proper placement and spacing to facilitate adequate ventilation and prevent overcrowding. Regularly clean and sanitize the cage to maintain a hygienic environment.

CHICK PLATES

Usage: Position the poultry chick plates at a low and easily accessible height to encourage young chicks to feed comfortably.

DRINKERS

Revolutionize poultry hydration with our Automatic Drinkers, engineered for convenience and optimal water access in poultry farms. Designed with precision, these automatic drinkers ensure a constant and clean water supply, promoting better hydration, health, and productivity for your flock. Upgrade your poultry management with our reliable Automatic Drinkers, offering efficiency and peace of mind for poultry farmers.

FEEDER

Usage: Set up the poultry feeders at an appropriate height to allow easy access for the birds while preventing waste and contamination

AUTOMATIC SYRINGES

Usage: Accurately measure and administer the required vaccines or medications according to the recommended dosage for your flock size. Ensure proper cleaning and sterilization of the syringe after each use to prevent cross-contamination and maintain the health of your poultry.

KROMS GAS BROODERS

Transform your poultry farm into a haven of warmth and comfort with our Gas Brooder, a reliable heating solution designed for efficient and uniform temperature control. Engineered with precision, this gas brooder ensures optimal conditions for chick rearing, promoting healthy growth and minimizing energy costs. Choose our Gas Brooder for a cost-effective and reliable heating solution that prioritizes the well-being of your poultry flock.

Usage: Position the poultry gas brooders at a suitable height above the chicks to provide uniform warmth, adjusting the intensity as needed for different growth stages. Regularly inspect and maintain the brooders to ensure a consistent and comfortable environment.

KENOCCELL

Introducing KENOCCELL, the epitome of precision in somatic cell count technology for dairy management. Unrivaled in accuracy, Kenocell is designed to provide dairy farmers with the most reliable and insightful data on milk quality. Elevate your herd management with Kenocell, ensuring optimal udder health and milk production by harnessing the power of the most accurate somatic cell count available.

PIG NIPPLES

POULTRY NIPPLES

ELECTRIC DEBEAKERS

Our electric Debeaker, a cutting-edge solution for precision beak trimming in poultry farming. Engineered for efficiency and safety, this electric debeaker ensures a quick and precise beak treatment process, minimizing stress on the birds. Upgrade your poultry management with our state-of-the-art Electric Debeaker, providing a humane and effective solution for optimal beak hygiene in your flock.

Usage: When using the poultry electric debeaker, carefully follow the manufacturer's guidelines to trim the beaks of chicks at the appropriate age to prevent injurious pecking.
